Contents of Volume 22

No. 1

A. Miller, J. A. Richards, D. M. McCann, C. W. A. Browitt & P. D. Jackson: Microseismic techniques for monitoring incipient hazardous collapse conditions above abandoned limestone mines 1

G. D. Matheson: The collection and use of field discontinuity data in rock slope design 19

S. G. Lee & M. H. de Freitas: A revision of the description and classification of weathered granite and its application to granites in Korea 31

M. E. Barton & S. N. Palmer: The relative density of geologically aged, British fine and fine–medium sands 49

B. Obika, R. J. Freer-Hewish & P. G. Fookes: Soluble salt damage to thin bituminous road and runway surfaces 59

C. G. E. M. van Beek: Rehabilitation of clogged discharge wells in the Netherlands 75

B. J. Murphy & M. S. Rosenbaum: Attenuation from seismic refraction surveying as a ground investigation aid 81

H. Hilbrecht & T. Meyer: Technical Note: Injected marl seams as drilling artefacts in chalk cores 87

Book Reviews 91

No. 2

Photographic Feature: The Catak landslide disaster, Turkey 93

J. H. Chandler & R. Moore: Analytical photogrammetry: a method for monitoring slope instability 97

J. G. C. Anderson & R. McNicol: The engineering geology of the Kielder Dam 111

M. Hovland: The formation of pockmarks and their potential influence on offshore construction 131

P. Howsam, F. C. Brassington & P. A. Lucey: The examination of encrustations in an unlined borehole using the sidewall sampling technique 139

N. S. Robins, J. M. Cook & D. L. Miles: Groundwater near the Moray Firth: the coastal aquifer between Forres and Elgin, Grampian Region 145

J. A. Barker & R. Herbert: Nomograms for the analysis of recovery tests on large-diameter wells 151

L. Clark & K. M. Baxter: Groundwater sampling techniques for organic micropollutants: UK experience 159

Book Reviews 169

No. 3

Photographic Feature: Large Byzantine water storage cisterns 173

P. Paronuzzi: Probabilistic approach for design optimization of rockfall protective barriers 175

N. R. Goulty & J E. Kragh: Seismic delineation of fissures associated with mining subsidence at Houghton-le-Spring, Co. Durham. 185

B. Czarnecki & J. E. Gillott: Stress–strain behaviour of sulphur concrete made with different aggregates and admixtures 195

M. D. A. Thomas, R. J. Kettle, & J. A. Morton: The oxidation of pyrite in cement stabilized colliery shale 207

A. H. Cooper: Airborne multispectral scanning of subsidence caused by Permian gypsum dissolution at Ripon, North Yorkshire 219

G. P. Birch: Applications of geomorphology to small hydroelectric schemes . . 231

J. D. Mather: The attenuation of the organic component of landfill leachate in the unsaturated zone: a review 241

Book reviews 247

Corrigendum 249

Notices received 251

No. 4

Photographic Feature: The great man-made river project 253

J. King, I. Loveday & R. L. Schuster: The 1985 Bairaman landslide dam and resulting debris flow, Papua New Guinea 257

M. J. Edge & G. C. Sills: The development of layered sediment beds in the laboratory as an illustration of possible field processes 271

A. B. Hawkins, W. J. Larnach, I. M. Lloyd & D. F. T. Nash: Selecting the location, and the initial investigation of the SERC soft clay test bed site . . 281

O. Ogunsanwo: CBR and shear strengths of compacted laterite soils from southwestern Nigeria 317

K. R. Rushton, B. J. Connorton & L. M. Tomlinson: Estimation of the groundwater resources of the Berkshire Downs supported by mathematical modelling 329

P. L. Younger: Devensian periglacial influences on the development of spatially variable permeability in the Chalk of southeast England 343

R. Harrison, W. B. Scott & T. Smith: Technical Note: A note on the distribution, levels and temperatures of minewaters in the Northumberland and Durham coalfield 355

C. R. Ward & J. Damtoro: Technical Note: In-field entry of geotechnical data in borehole logging to a hand-held portable computer system 359
